 Release Notes

Version 3.3

Feature List

 Faster Workflows

 Secure Transactions

FEATURE SPOTLIGHT

Platform Badges

Enhance platform trust and user visibility with a robust, customizable badge system for all marketplace participants.

Two Assignment Methods

Badges can be assigned by admins or bought by users.

Free and Paid Options

Admins have full flexibility to create both free & premium paid badges.

Universal Applicability

Assignable to clients or freelancers as needed.

Boost Profile Credibility

Badges boost trust, visibility, and conversions.

Alex Carter

Senior UI/UX Designer

Project Milestones

Divide projects into multiple milestones to ensure better planning, tracking, and progress monitoring between clients and freelancers.

Clear & Specific Deliverables

Enhanced Progress Tracking

Mutually Aligned Expectations

FEATURE SPOTLIGHT

Single Job Form

A simple and streamlined interface designed for clients to post jobs quickly and effortlessly, eliminating unnecessary steps.

All-in-One Interface

Submit all essential job details through a single, easy-to-use form seamlessly.

Faster Job Posting

Fewer steps help clients post requirements faster.

Intuitive Experience

Clear guidance and simple layout reduce friction.

Quick Publishing

Post requirements and connect with the right freelancers.

Two-Factor Auth

Twilio and Clerk integration enables secure Two-Factor Authentication (2FA), providing an additional layer of security for user accounts, drastically reducing unauthorized access, and protecting platform integrity.

Email or Mobile OTP

Users authenticate via a one-time password sent directly to their verified device.

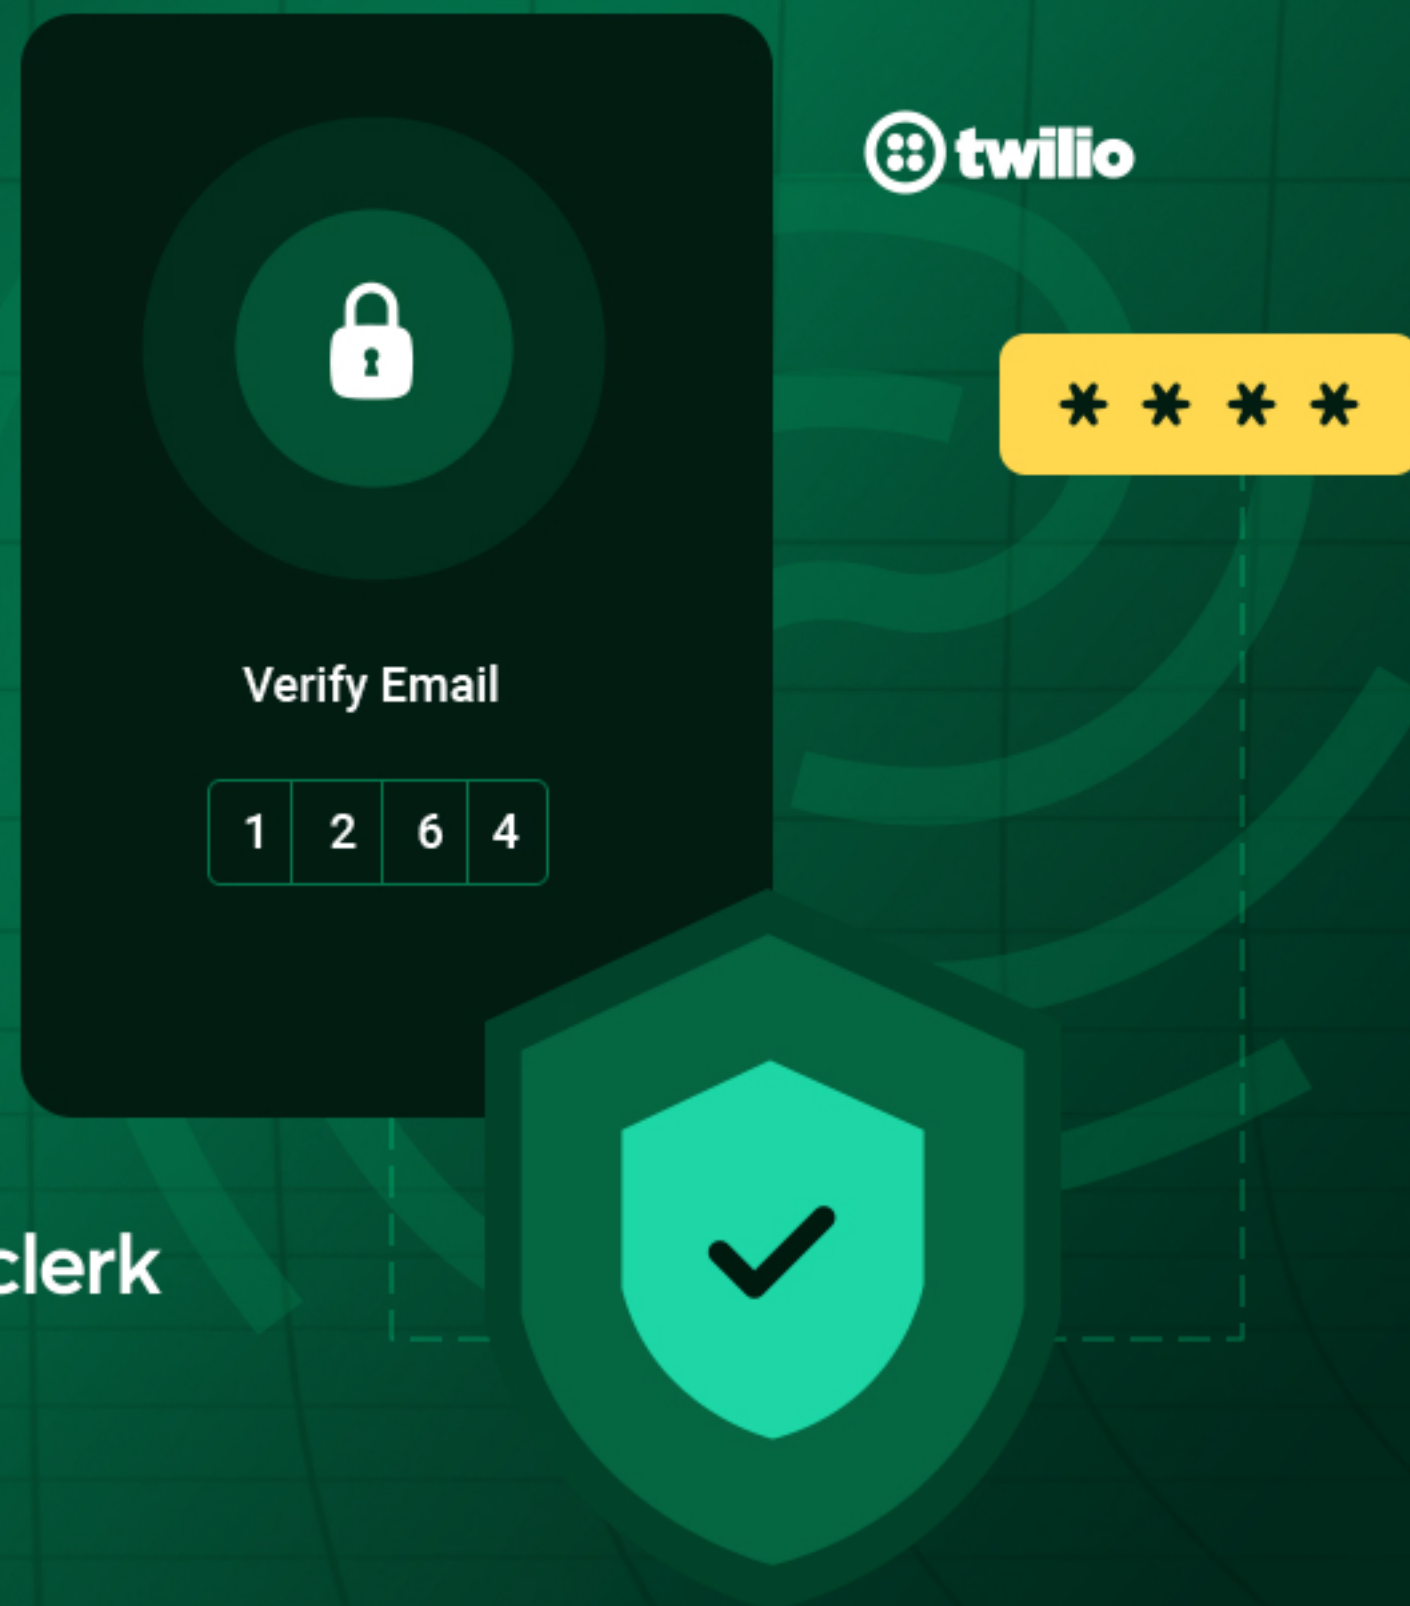

Admin-Enabled Security

Easily toggle the 2FA layer from the admin dashboard to enforce safer login practices.

Verified Access Only

Effectively prevents unauthorized breaches, ensuring safe transaction environments.

REVENUE STREAM

Admin Commission

Earn commissions directly from client payments, creating a powerful secondary revenue stream beyond existing freelancer fees.

Dual Revenue Streams

Effectively monetize your marketplace from both sides.

Configurable Percentage

Easily adjust the commission rate via the admin panel.

Complete Flexibility

Turn the client-side commission on or off as business needs dictate.

TEAM COLLABORATION

Multiple Freelancers

Hire multiple experts for a single job. Ideal for large-scale or multi-skilled projects requiring diverse expertise.

Individual Assignments

Assign specific roles, timelines, and payouts.

Better Collaboration

Streamlined task distribution for complex builds.

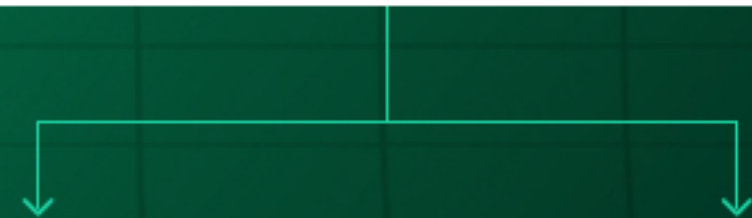

Greater Flexibility

Assemble the perfect team for your exact needs.

Upload New Project

Reimbursements

Freelancers can seamlessly submit additional project expenses while clients retain full control over review and secure payments.

Submit Expenses

Showcase expertise through high-quality images and details.

Client Approvals

Clients review requests and securely process the payments.

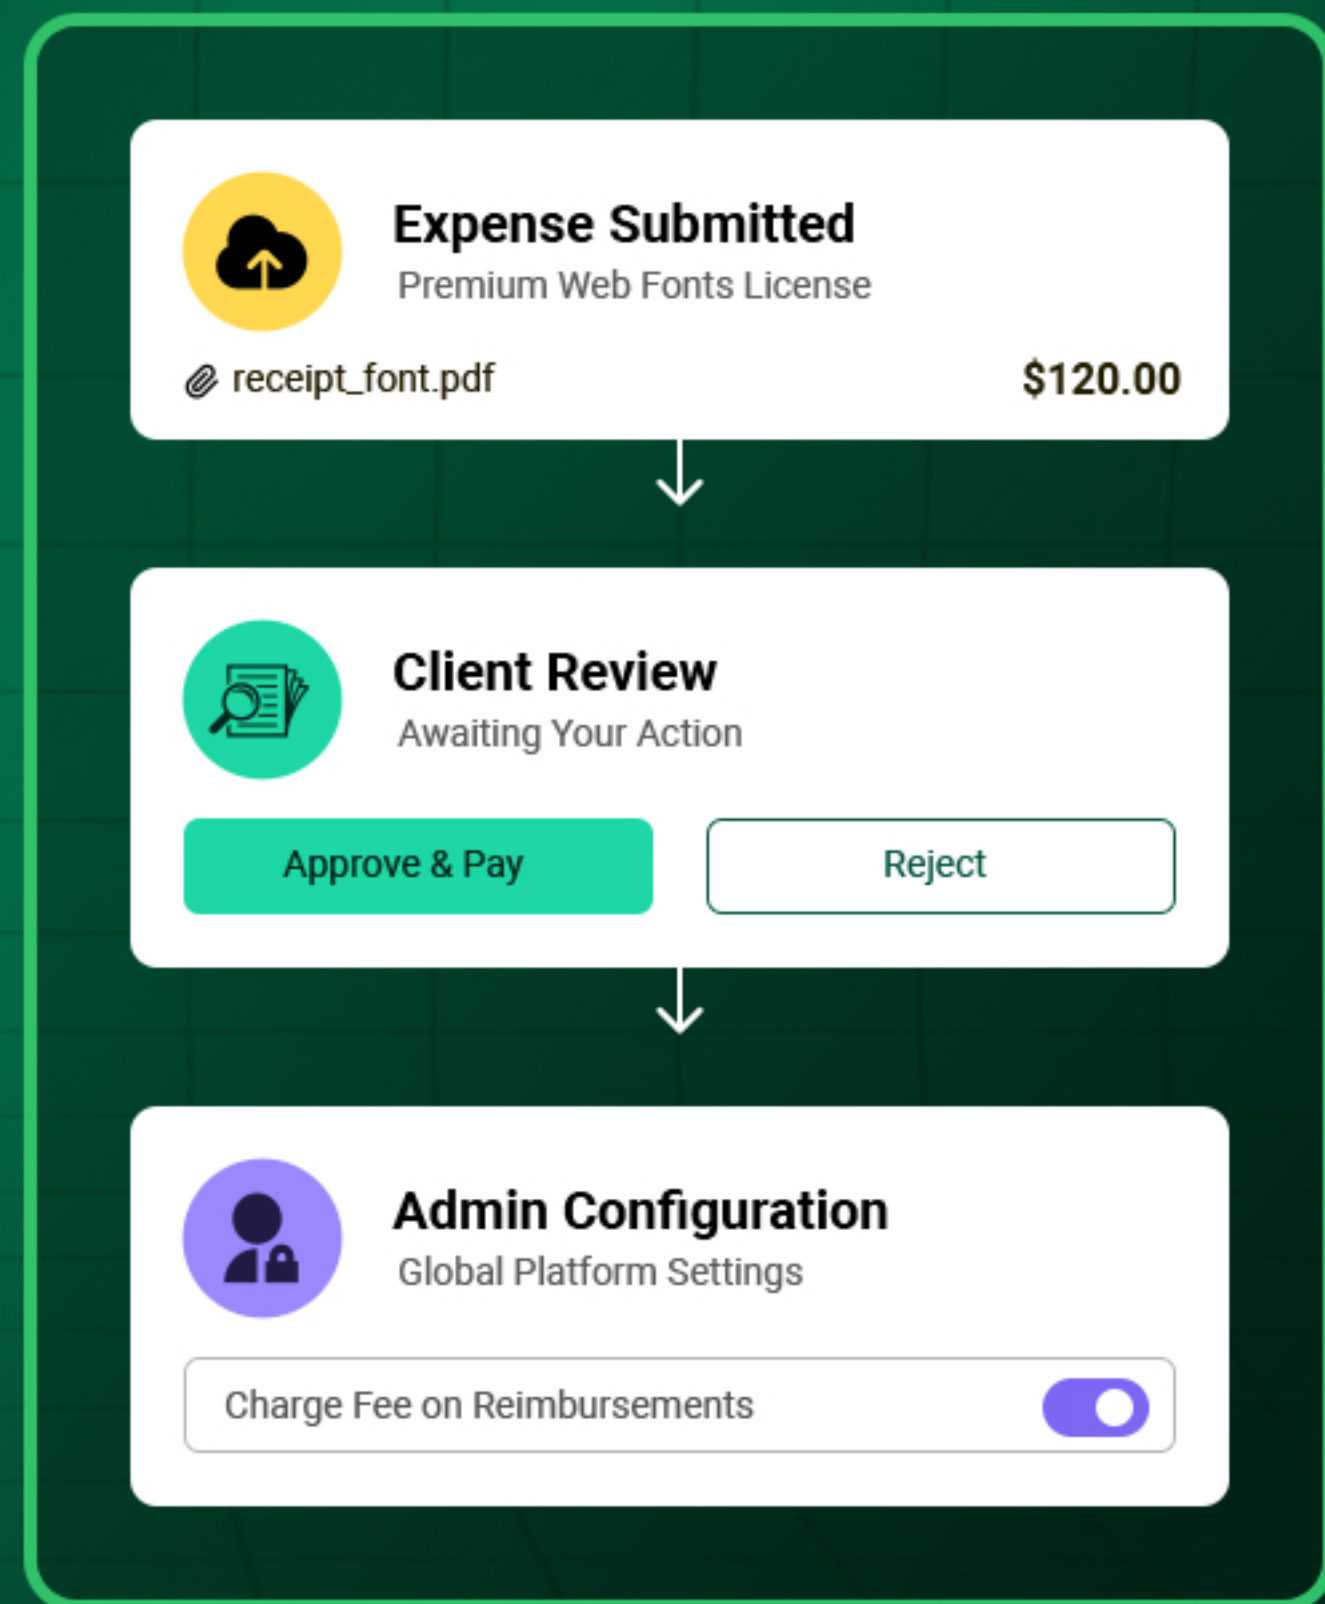

Commission Control

Admins toggle whether to apply platform fees to reimbursements.

Transparent Tracking

Maintain a clear, auditable trail of all project-related costs.

Category Levels

Manage multi-level categories seamlessly. Create tailored detail pages with custom banners to guide clients more effectively.

Deep Hierarchies

Create nested structures for precise taxonomy.

Tailored Page Design

Customize with specific banners, images, and copy.

Improved Navigation

Guide clients effortlessly to the most relevant services.

PROCESS TIMELINE

Subscription Plans

Charge a monthly fee for platform access. Added recurring revenue streams with flexible plan configurations for both clients and freelancers.

Admin Revenue Growth

Creates predictable, recurring income managed entirely via the Admin Panel.

VIRAL GROWTH ENGINE

Refer and Earn

Accelerate platform growth with a configurable referral module. Users invite peers, and both earn reward points upon successful registration.

Admin Controlled

Easily enable/disable the module from the dashboard.

Mutual Rewards

Both referrer and referee earn points on sign-up.

Configurable Tracking

Set specific point values, redemption criteria, and track ROI.

Program Mechanics

Payment Gateway

PayNow is integrated as a secure PayIn option. Admins can seamlessly configure test & production environments to enable smooth user transactions.

PayNow Integration

Added as a primary PayIn option for users.

Admin Configuration

Easily manage test and production API keys.

Secure Checkout

Provides a familiar, trusted payment flow for users.
